

Power Your Business with Rooftop Solar

Harness solar power to reduce energy costs, improve efficiency, and turn underutilised rooftop space into a valuable source of clean, on-site energy.

Unused Space. Unlocked Potential.

Is your organisation under pressure to reduce energy costs, improve resilience and meet sustainability targets? Do you want to unlock the potential of your existing roof space?

Rooftop solar transforms unused roof space into a high-performance renewable energy asset, generating clean power while reducing costs, strengthening energy resilience and future-proofing your business.

The Opportunity

Generate Clean Energy

Produce low-cost renewable electricity on-site.

Reduce Operating Costs

Low energy bills and protection against price volatility.

Cut Carbon Emissions

Make measurable progress towards Net Zero.

Minimal Disruption

Installation with minimal disruption to daily operations.

Create Long Term Value

Benefit from long-term, predictable energy savings.

Your Rooftop. Your Power. Your Savings.

Powering Business. Enhancing Performance.

We combine engineering expertise, high-quality technology and meticulous project delivery to ensure your system performs at its best for decades to come.

Bespoke System Design

Tailored to your roof, energy profile and business objectives.

Structural Assessments

We ensure your roof is suitable, supported and optimised for solar.

Installation for Every Roof Type

Suited to your roof type; whether flat, pitched, metal profile, or industrial.

Practical Starting Point for Solar

Makes use of your existing roof space and infrastructure.

Powering Your Building Directly

The electricity generated by your panels feeds directly into your building.

Minimal Planning Requirements

Making the process straightforward for many buildings.

Flexible Funding To Accelerate Your Energy Transition

Through our trusted funding partners, CrowdHouse Energy provides flexible commercial solutions across the public and private sectors. We structure funding around your needs, ensuring the right commercial model for your organisation and your project.

CapEx

Own it.
Maximise the return.

Upfront investment with full ownership from day one

Best suited to organisations seeking maximum long-term financial return

Retain 100% energy savings generated by the system

Hire Purchase

Spread the cost.
Keep the upside.

Zero cost up front. Fixed term monthly installments

Preserve working capital with cashflow positive repayments

Ownership transfers at the end of the agreement

PPA

No CapEx.
Lower-cost clean energy.

No upfront capital investment

Purchase renewable electricity generated for agreed rate below grid cost

Immediate energy and carbon savings

FUNDING PARTNERS

Working with trusted funding partners enables us to deliver flexible commercial structures for organisations across the public and private sectors.

Whatever your financial strategy we can help identify the funding model that delivers the strongest commercial outcome.

CrowdHouse Energy

Powering a Net Zero Future

CrowdHouse Energy partners with commercial, industrial and public sector organisations to unlock the full potential.

Our approach combines engineering expertise, innovative technology and commercial insight to create renewable energy assets that work harder for our clients.

Designed in the UK

Developed in the UK for UK conditions and built to last.

Engineering Excellence

Innovative design backed by deep technical expertise.

In-House Manufacturing

Quality controlled, factory-built modules ensure speed and reliability,

End-to-End Delivery

We handle everything. From design and planning to installation and commissioning.

Ongoing Support

Comprehensive O&M packages maximising performance over time.

NEXT STEPS

Ask us about our
flexible funding options.

Discover how your organisation can
start generating clean energy with
little or no upfront investment.

Build a More Resilient Energy Future

Partner with CrowdHouse Energy to create intelligent,
future-ready energy infrastructure.

Discover how our rooftop solar can deliver clean energy, lower costs and
long-term value for your organisation.
