

Scale Your Energy with Ground Mount Solar

Unlock the full potential of your land with a ground-mounted solar solution designed to generate clean, reliable power while delivering long-term energy savings.

More Than Land. A Source of Value.

Is your organisation looking to make better use of unused or underutilised land? Do you want to generate clean energy while reducing costs and creating long-term commercial value?

Ground-mounted solar transforms available land into a high-performance renewable energy asset, delivering efficient energy generation, lower operating costs and long-term returns without the constraints of rooftop installations.

The Opportunity

Generate Clean Energy

Produce low-cost renewable electricity on-site.

Optimal Energy Yield

Layout and orientation for maximum generation

Cut Carbon Emissions

Make measurable progress towards Net Zero.

Flexible System Sizing

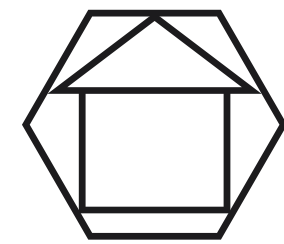

Expand, upgrade or integrate with batteries and networks.

Create Long Term Value

Benefit from long-term, predictable energy savings.

Build Your Own Power Plant. Your Land. Your Energy.

Powering Business. Enhancing Performance.

We combine engineering expertise, high-quality technology and meticulous project delivery to ensure your system performs at its best for decades to come.

Bespoke System Design

Tailored to your site, energy needs and business objectives.

Site Assessment

Land suitability, access, grid connection and planning considerations.

Robust Mounting Systems

High-quality structures engineered for long term durability.

Battery Storage Ready

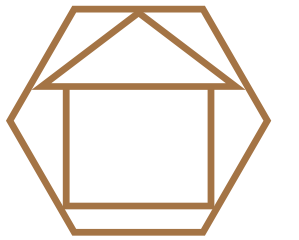

Future proof your system with battery integration capability.

Maximum Energy Generation

Optimal orientation and flexible layouts deliver higher energy yields.

Minimal Maintenance

Low maintenance requirements and long term reliability.

Flexible Funding To Accelerate Your Energy Transition

Through our trusted funding partners, CrowdHouse Energy provides flexible commercial solutions across the public and private sectors. We structure funding around your needs, ensuring the right commercial model for your organisation and your project.

CapEx

Own it.
Maximise the return.

Upfront investment with full ownership from day one

Best suited to organisations seeking maximum long-term financial return

Retain 100% energy savings generated by the system

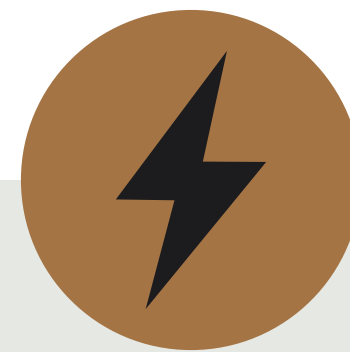

Hire Purchase

Spread the cost.
Keep the upside.

Zero cost up front. Fixed term monthly installments

Preserve working capital with cashflow positive repayments

Ownership transfers at the end of the agreement

PPA

No CapEx.
Lower-cost clean energy.

No upfront capital investment

Purchase renewable electricity generated for agreed rate below grid cost

Immediate energy and carbon savings

FUNDING PARTNERS

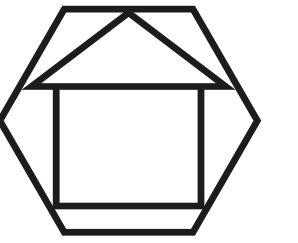

hdm.energy

**electron
green**

**smart
ease**

Working with trusted funding partners enables us to deliver flexible commercial structures for organisations across the public and private sectors.

Whatever your financial strategy we can help identify the funding model that delivers the strongest commercial outcome.

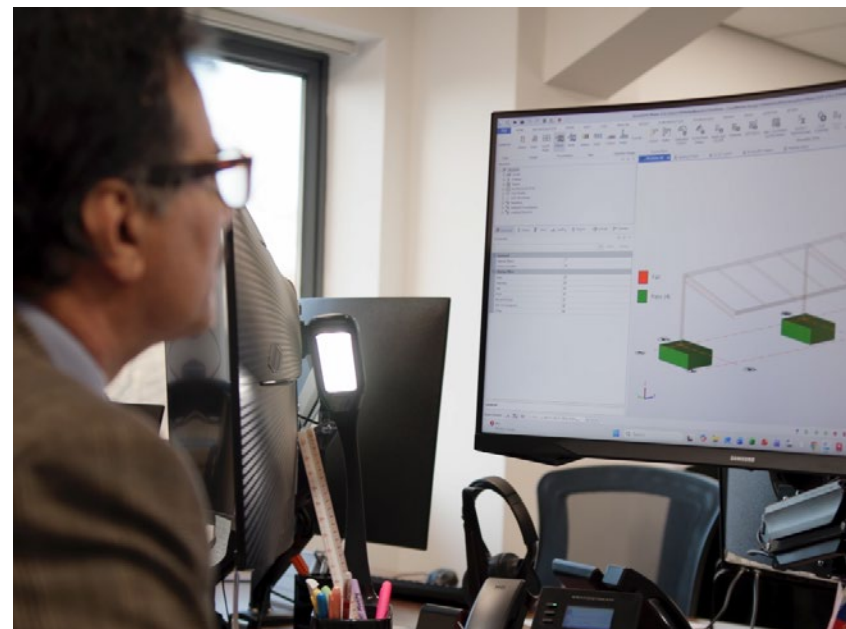

CrowdHouse Energy

Powering a Net Zero Future

CrowdHouse Energy partners with commercial, industrial and public sector organisations to unlock the full potential.

Our approach combines engineering expertise, innovative technology and commercial insight to create renewable energy assets that work harder for our clients.

Designed in the UK

Developed in the UK for UK conditions and built to last.

Engineering Excellence

Innovative design backed by deep technical expertise.

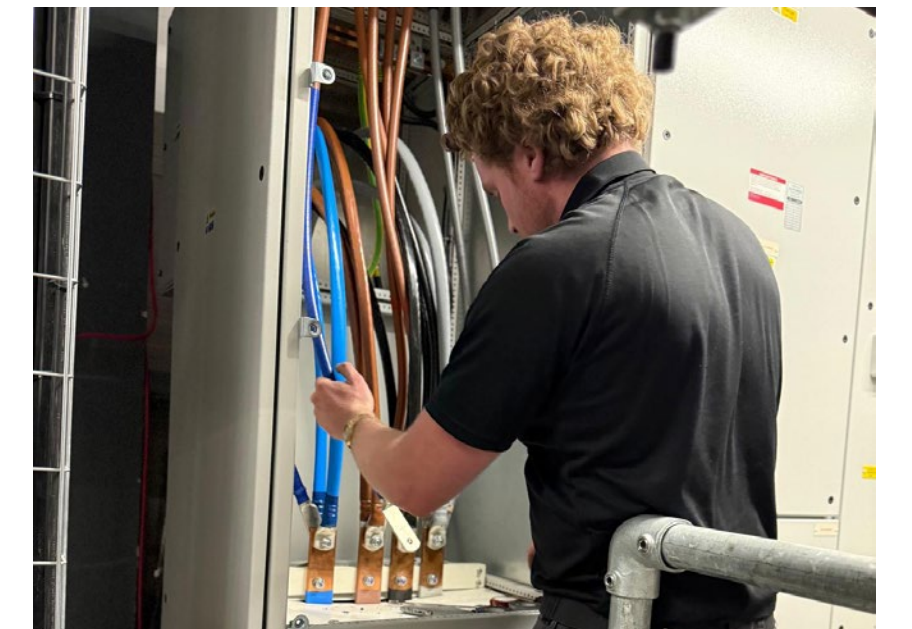

In-House Manufacturing

Quality controlled, factory-built modules ensure speed and reliability,

End-to-End Delivery

We handle everything. From design and planning to installation and commissioning.

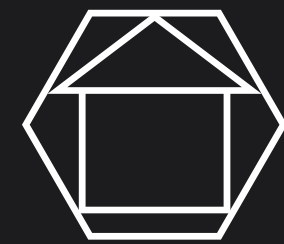

Ongoing Support

Comprehensive O&M packages maximising performance over time.

NEXT STEPS

Ask us about our
flexible funding options.

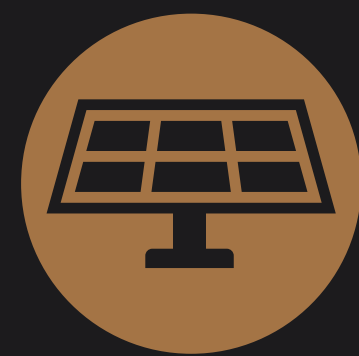

Discover how your organisation can
start generating clean energy with
little or no upfront investment.

Build a More Resilient Energy Future

Partner with CrowdHouse Energy to create intelligent,
future-ready energy infrastructure.

Discover how our ground mount solar can deliver clean energy, lower
costs and long-term value for your organisation.
